Speculative sentiment was as much muddied when trading ceased yesterday as it had been at the close of business on the pre-

evested is a serious restraint upon out-

by since the first of the week, but there men enough action in the market to all the requirements of the habitual

trading element, and the purely professional apeculation, therefore, has been tremendous.

The prominence of professional floor opera-

testified to the character of the speculation.
One trader was reported to have sold 20,000

shares of Union Pacific in the first hour, and later in the day he was said to be buying

tendencies and others supposed to be acting

reported to have been selling that stock heavily Several of the most aggressive traders in the room got on top of the market at the opening and sold stocks heavily; on

the break they covered, and in some instances went long besides, and in the afternoon

those who had taken the long side for a turn hid up prices sharply at the expense of the shorts. The rally in the last hour was thought to be largely due to short covering. The selling pressure had materially relaxed at

It is a market, brokers think, which the pollywogs of speculation would do well to let alone for a while.

There are a number of houses that are not

urging their clients to deposit their Northern Securities stock. There is no need for haste, they think, and meanwhile they are

not anxious to tie up capital in the transac-tion. One broker who takes this view of the

situation explains as follows: "In order to deposit one's Northern Securities stock one

has either to take it up outright or sub-stitute something else for it as collateral at

the bank. Then in exchange for the North-ern Securities stock so deposited one gets

receipt calling for something else, and we

ferred, what shall be done with them? There is no free market for them anywhere and

the banks may not be willing to lend money on stocks in that position, especially as the suspicion rests against both Northern Pa-

ific and Great Northern preferred, par-

ticularly the latter, that the quotations re-

cently made for them were arbitrarily estab-lished, presumably to give Northern Se-curities stock a greater apparent value. I can see that this exchange is likely to tie

In the American quarter of the London market Northern Securities stock had been advanced 3 points over night, and Union Pacific was quoted at an advance of 1 per cent

over Tuesday's final quotation here, but neither stock responded in this market to

the advances abroad. Northern Securities stock opened here on the level of Tuesday's

closing and declined during the first hour to almost the low point reached on Tuesday

morning's break. This was more obviously due to a lack of support than the break on

Tuesday, because those who might have disposed to support the market could

of have been taken unawares as they said they were on Tuesday. The stock recovered slowly and closed at 1721/2. The transactions were as heavy as they were during several days preceding the closing of the transfer

on which large holdings of Northern Securi-ties stock could be sold. General speculative

## PANIC COMING!

In December last I called the attention of the American people to the fact that 'Standard Oil" & the "System," having loaded up with billions of the stocks & bonds of Wall Street, were inaugurating a campaign to fictitiously double their price & unload them upon the people.

There was a tremendous smash, & the

"System" was compelled to buy hundreds of millions more to stay the decline at fair At that time the leading votaries of the

"System" hurriedly got together & agreed to contribute \$40,000,000 as a

working fund to prevent decline & to pay expenses of a campaign having for its end the teasing into the market of the masses of investors.

Since then the world has witnessed what brute money, unassisted by the people or public sentiment, can do-prices have advanced tremendously.

One illustration: United States Steel

stocks & bonds have advanced from \$350,000,000 to \$700,000,000.

Others, representing billions, have increased in like proportion, but—.
The people have refused to bite, & today Wall Street & the financial world

stocks were invented.

The big stock gamblers have billions of stocks & bonds, upon which they are borrowing at the great banks, trust companies & corporations—billions of money, & prices are so high they cannot go much They cannot remain where they are, and the only direction they can take is downward.

They must come down now or later.
Already the big gamblers are getting suspicious of each other, & if one or two stocks break 5 points suddenly a panic of chaotic proportions will be with us in a jiffy.

#### Bank & Trust Company Presidents & Directors:

You are loaning hundreds of millions of your deposit to stock gamblers upon stocks & bonds at prices which in a panic can decline 70 to 80 per cent, more than those at which you have taken them.

This will mean failure to many institutions which hold the people's savings.

The American people are in no mood at present to have their savings sacrificed to

present to have their savings sacrificed to stock gamblers. Therefore:

It behooves you to heed when your at-tention is called to present conditions. This is the purpose, & only purpose, this advertisement—that you cannot The present cry is, "There is not a cloud in sight!"

This was the cry before President Cleveland issued his Venezuela message, before cholera struck New York, before the Northern Pacific corner broke, before President McKinley's death put the nation in mourning, & — General Electric broke from 119 to 57, Sugar was cut in two, Cordage and Tobacco declined \$100 a share, & all stocks shrunk in an hour to an aggregate of hundreds of millions. & banks, trust companies dreds of millions, & banks, trust companies & banking houses failed.

Now is the time for you, the trustees of the people's savings, to think this over, not when your institutions have closed their doors, for you know-

United States Steel alone can shrink \$300,000,000 in 30 minutes, and all other stocks in like proportion.

#### Policy-Holders, New York, Mutual, Equitable:

When my story "Frenzied Finance" began, I said "The 'System' votaries who run your companies are using your funds for their personal enrichment." I said nothing stronger than this.

A howl of "Liar!" went up throughout the country.

To-day the highest officers in these companies are accusing each other of almost every crime in the calendar outside of murder, &—proving it. The President of the Equitable says its Vice-President & owner has looted the treasury. The Vice-President answers by giving back what he admits he has secured, & charges that where he took tens of thousands the other directors & officers took millions.

Already the "System's" votaries have

started their machinery, & are working night & day with fake committees & dummy litigation to befog policy-holders until they do not know which way to turn for protection.

So far the Equitable is the only company upon which the searchlight is turned.

I showed in the beginning of my story
one transaction of the New York Life
where it sold to a syndicate of its directors, headed by John D. Rockefeller, the stock of the New York Security & Trust Company at a price which showed them \$4,000,-000 profit which should have gone to the company. No civil or criminal actions have as yet been talked of against this company, & the "System's" votaries are moving heaven and earth to confine the present conflagration to the Equitable's affairs. In my opinion, proper suits instituted by policy-holders will cause restitution to these three companies of over \$150,000,000. I am urged by thousands of policy-hold-ers of each of these companies to act for them, & will.

I therefore advise all policy-holders in these three companies against tying themselves up in any way with any of the dif-ferent committees which are being created to head off the efforts for their protection until in the June issue of Everybody's I will have submitted a plan for their protection, which on its face will command their unanimous approval.
Policy-holders should bear in mind that

the deeds which have been committed by some of the larger insurance companies are now so clearly proved that it is not a question of civil action and restitution alone, but of criminal action & punishment.

#### Everybody's Magazine, Out To-day,

contain in the "Lawson and His Critics" column a startling chapter on insur-

Receipts of beeves were 1.506 head, including 45 cars consigned direct to slaughterers and 58 for the market; making, with the cattle held over yesterday 36 cars on saie. Trade was slow and prices generally 104,15c. off all around; some sales 20 to 25c. lower; the yards were not quite cleared. Ordinary to prime native steers soid at \$5.06,856.05 per 100 lbs; tops at \$6.90; buils at \$58,352.0; c.ws at \$1.75,854.00. Dress d beef slow at \$4,10c. per lb. with general-saics at \$86,0c. Liverpoel and London cables quoted live cattle caster at 115,56. 124c. per lb. dressed weight; live sheep stracy; ririgerator beef selling at \$69,94c. per lb. Exports to-day, 2,800 quarters of beef; none to-morrow. refrigerator per a control of beef; none to morrow.

Receipts of calves were 4,958 head, all for the marke, with the exception of 93 head. Trade opened active, and early sales were in many cases at Monday's prices; but the casier tone that prevailed later amounts d to a decline of 15625c., although the stock was well cleaned up. Poor to prime veals sold at \$4637.50 per 100 lbs. and a few tops at \$7.75; cuils and little calves at \$3654. Dressed calves were no more than steady. City dressed veals sold at \$6115c. per lis; country dressed at 769c., with extra stock bringing as night as \$146.

A prominent Stock Exchange house that is still conservatively builtsh writes: "We need hardly repeat our statement that the states more buying orders at these figures than are readily furnished, and we risk expect these stbacks even although we admit that the stocks ultimately will go distinctly higher."
